# SKILLS

**Teamwork**: My experience as a performing dancer, dance teacher and working with fellow game designers has honed my ability to collaborate effectively with others. As evidenced by my selection as a performer in the School Spectacular 2022, I am a reliable and supportive team player.

**Communication**: Through the many group assignments in high school and university I have become a clear communicator who understands that listening is also a vital communication skill.

**Time Management**: Balancing part-time work and full-time study has strengthened my organizational and time management abilities.

**Programming Skills**: I'm very proficient in c# and java programming languages but am always happy to learn more

**3D Modelling and Animation**: I'm also proficient in Blender with its vast tools to model and animate.

**Game Engine**: I have knowledge of maneuvering in Unity, Unreal Engine and a few other game engines

**Agile Methodology Skills**: Through the various group projects that I have been on and the tools that were used. It has given me credible knowledge in going through an Agile methodology to create video games. Like utilizing task-tracking software like Jira or HackNPlan.
